

Edgar Colmenero

Software Engineer

Dallas Fort-Worth, United States / edgarcolmenero15@gmail.com / 8175033500

Professional summary

Computer Science student with a strong foundation in full-stack software engineering, data structures, and applied data analytics. Experienced in building scalable web applications using modern frameworks, implementing structured business logic, and designing systems with performance and maintainability in mind. Passionate about developing data-driven, user-focused products that optimize performance, improve user experience, and drive measurable outcomes. Continuously expanding expertise in algorithms, backend architecture, and applied data science through academic coursework and hands-on projects.
